

Contractors: WIN MORE BIDS!

Developed by Estimators for Estimators™, e4Clicks is a proven, fully integrated, collaborative product for estimating, as well as contract, project, and document management. Almost 90% of the country's Air Force Bases currently use e4Clicks, as well as rapidly growing numbers of Army/Army Corps of Engineers installations, and other DOD and non-DOD federal agencies, county, state and local governments, transportation agencies, and healthcare institutions. It's time to simplify the process and give your business a BOOST. Give your team the technology and competitive edge you need to win more bids with e4Clicks Project Estimator!

e4Clicks was designed to meet the needs of contractors just like you! It's packed with features to help you begin or improve your existing business in the hard to reach government sectors for any type of contract. You can manage multiple contracts, projects, estimates, bids, cost books, contractors, and subs, all in one application! Get the industry's best access to multiple cost data sources. Our ongoing support, training and customer service are second to none.

Estimating

- 🔗 Break free from spreadsheet formula errors and productivity issues
- 🔗 Access full line item descriptions, notes, takeoffs, crews, and pricing info
- 🔗 Easily incorporate your custom line items or integrate items from any industry guide
- 🔗 Manage multiple estimates within each of your team's projects

Contract Management

- 🔗 Organize and track documents, milestones, inspections, and warranties, electronically and with greater accuracy
- 🔗 Auto populate Government forms with project data, or create your own
- 🔗 Run all of your contracts (JOC, SABER, IDIQ, MATOC, MACC, SATOC, POCA) in one program
- 🔗 Automatically link your line items to your construction specifications

eTakeoff Plan Viewer

- 🔗 Eliminate paper plans with powerful virtual quantity take-off, QTO, and Pattern Search
- 🔗 Measure and color code counts, lengths, and quantities with ease
- 🔗 Total measurements from multiple plan sheets easily
- 🔗 Supports multiple file formats including PDF, DWG, and TIFF

Cost Data & IDIQ Pricing

- 🔗 Access the most valuable industry leading cost data sources
- 🔗 Your cost data and IDIQ custom cost books are just a click away
- 🔗 Easily select a national standard cost database, as well as your own customized items
- 🔗 Enjoy the most powerful, intuitive search features

Training

- 🔗 Practice with hands-on training for better understanding and greater retention
- 🔗 Take home training materials packed with rich, detailed information or try our virtual training from your home or office
- 🔗 Classes led by cost estimators and project managers with years of experience
- 🔗 Earn Continuing Education Units for class attendance
